Re: MacroView Date Codes
Date: July 17, 2007

MacroView Date Coding

MacroView Date Codes are 5 digits in YYDDD

YY = Last digits of the year
DDD = Day of the year starting from 001 (January 1st)

i.e. January 15, 2007 = 07015

Note: Units manufactured between August through December 2004 were date coded DDDYY.
